Cummins donates engines to over 60 ITIs across Maharashtra

December 15, 2011; Pune: Cummins, the country's leading manufacturer of engines, generators and related components and technologies, is donating engines to over 60 ITIs across Maharashtra. Today, one such engine was donated to the ITI at Aundh in Pune. The 30kVA, 4-cylinder Cummins engine was presented to R.S Ghume, Joint Director, Director Vocational Education & Training by Ravichandran Subramanian, Head - Corporate Responsibility, Cummins Group in India.

Higher Education being a critical part of Cummins' corporate responsibility efforts, the Company is extending its resources in helping the select 62 ITIs enhance their training programs. ITIs equip students with technical and soft skills desired by the automotive/manufacturing/engineering sector; thereby making them employable for this industry. Besides the ITI in Pune, these engines are being donated to ITIs in Phaltan, Aurangabad, Sangli, Satara and Kolhapur, amongst others.

Speaking on the initiative R.S Ghume, Joint Director, Director Vocational Education & Training, said, "We are excited about the initiative undertaken by Cummins towards enhancing our training programs. Initiatives such as these benefit our infrastructure and faculty, allowing us to continue to impart high-quality vocational training and education to our students. We believe that the hands-on experience on a Cummins engine will add significant value to our program".

Ravichandran Subramanian, Head - Corporate Responsibility, Cummins Group in India, said, "By supporting the ITIs we are furthering our efforts towards making quality education accessible to students. The hands-on experience of working on engines will help the students hone their technical skills, which will benefit them immensely as they begin their careers in the industry."

In addition to engines, Cummins is also providing the required knowledge, skills, training and tools for dismantling and assembling an engine to the instructors at the ITIs.

Under Higher Education the other initiatives which Cummins continues to drive include; supporting the Cummins College of Engineering for Women in ways monetary and beyond,

providing scholarships to students from the disadvantaged sections of society, and upgrading the ITI at Phaltan. In addition to Higher Education, the two other areas that Cummins focuses on as part of its Corporate Responsibility initiatives are; Energy and Environment and Local Infrastructure Development.
